Proposal: Erection of greenhouse within new walled garden, creation of sunken garden, creation of formal gardens within existing garden and the removal of 2no. trees (amendments to S/HOU/22/1634).

Application: S/OUT/23/0456 (15th March 2024)

Location: Land East Of Wanborough Road , New Eastern Villages Wanborough

Proposal: Outline planning permission for up to 275 dwellings (use class C3) including the provision of affordable homes, together with pedestrian and cycle connections, landscaping, surface water drainage, open space to include play areas, allotments and other supporting infrastructure (including utilities) and engineering works including groundworks; removal of structures and demolition; with all matters reserved except for the formation of accesses from the Southern Connector Road and Wanborough Road.

(b) To note any comments submitted between meetings:

Application: S/24/0014

Location: Land Off Commonhead Roundabout, Purley Road Swindon SN4 0HA

Proposal: Development of a Bio-CNG vehicle fuelling station comprising fuel pump islands, plant compound, widened access, landscaping and associated development.

Resolved: The meeting submitted the following comment;

Liddington Parish Council has reviewed the above planning application that was received by us on 29th January 2024.

Whilst we support the need to move towards a cleaner environment and reduce our dependency on fossil fuels, we are concerned that the negative impact of this proposed development outweighs the benefits and do not support it. Specifically,

- Area of Outstanding Natural Beauty (AONB) - The proposed location has been designated an AONB for a reason. AONB designation should offer protection against this development
- Access – Proposed access to the site will be via the Purley Road. To enter the site, HGV's will have to turn across oncoming traffic. This is not only dangerous but is likely to lead to queues tailing back to the Commonhead Roundabout at peak times which will further disrupt the traffic flow on the A419 and associated roads
- Flooding – The proposed location is prone to flooding. Also, water often lies on the Purley Road near the proposed entrance to the site requiring cars going north-west down the Purley Road to go onto the south-east bound carriage to avoid the water. This will be a dangerous arrangement if there are HGVs trying to cross the traffic at this point
- Traffic – We see that the traffic analysis submitted to support the application was conducted during a single week in September 2023. If it had been conducted over a longer period of time, and during one of the 5 or 6 recent closures of the M4, you would have seen the utter chaos on the Purley Road as it is used as an alternative to the M4. The proposed development will exacerbate an already unacceptable situation
- Pollution – Whilst the application talks at length about the proposed mitigation for pollution, there is no doubt that there will be air, light, noise and visual pollution of the environment.

We also see that many alternative sites have been considered and disregarded for various reasons. We find it impossible to believe that there isn't a suitable brownfield site that would avoid the destruction of the countryside. Indeed, there is a large service station development planned at junction 16 of the M4. Wouldn't this make a far better location for this development?

Please consider this input as part of your decision making process. We believe it provides compelling rationale for rejecting the proposed application.

(c) To note any decisions:
